

Graduate Programme 2025 Taiwan

Are you passionate about renewable energy and eager to start your career in a company where you can turn theory into impactful practice? Join PEAK Wind's Graduate Programme 2025 in Taiwan and make a difference in driving the green energy transition.

Trusted Advisors for Developers and Investors for some of the Largest Renewable Assets

At PEAK Wind, we specialise in operations, asset management, and project management of renewable energy assets and take pride in providing best-in-class commercial, financial, and operational advisory and support to our clients. We work with some of the world's largest infrastructure investments and are proud to count market-leading utilities, investment funds, and Independent Power Producers among our clients.

What the Graduate Programme Offers

Our two-year Graduate Programme is designed to accelerate your professional growth through immersive, hands-on learning in three different business areas. Working alongside industry experts, you will gain experience through diverse projects, both internally and externally, that grow in complexity and responsibility.

The Graduate Programme Taiwan is available in both Changhua and Taipei.

Your rotations could take place in below areas of the business:

- Commercial Asset Management
- Data & Intelligence
- Technical Asset Management
- HSEQ
- Operations Economics & Analytics
- Operations Preparations

What You Will Gain

As a graduate, you will:

- **Develop your skills** through tailored training and business-critical projects that challenge and push you to grow.
- **Deepen your understanding** of the renewable energy sector and build a robust professional and personal toolbox.
- **Expand your network** within PEAK Wind's global team and cross-functional business areas.
- **Enhance your cultural agility** by working in a dynamic, international environment with diverse stakeholders.
- **Receive mentorship** from experienced professionals to guide your career development.
- **Be part of Practice Groups** to strengthen your industry insights and consultancy skills.

To qualify for the Graduate Programme, you need to:

- Hold or complete a technical, commercial, or financial master's degree by September 1st, 2025.
- Have no more than one year of post-graduation work experience.
- Demonstrate proficiency in English, both written and spoken.
- Bring a proactive mindset, sharp analytical skills, and a drive to excel.
- Thrive in a fast-paced, international environment.
- Have a Taiwanese working permit.

Experience the Highest Degree of Involvement

PEAK Wind is dedicated to fostering a work environment that values diversity and our values of Expertise, Passion, Unity, and Integrity are materialized through our team members every day. Here you will be able to utilize your financial skills while developing a strong understanding of renewable energy assets. We offer an opportunity to get on board and experience the highest degree of involvement and responsibility in PEAK Wind's global renewable energy team. Together with the rest of the team, you will play an instrumental part in the continued success of PEAK Wind. Above that, you will participate in an entrepreneurial environment, with a focus on cooperation and a desire to change the status quo.
