

HSEQ Manager

Are you passionate about renewable energy, and keen to make a difference? Then come and join us at PEAK Wind. We are looking for an HSEQ Manager to support us in delivering the highest HSEQ standards globally, across all parts of the organization, and on projects.

HSEQ Manager for PEAK Wind

Based in one of our offices in Denmark (Aarhus, Copenhagen), the UK (London, Glasgow), or Germany (Hamburg), you will join our dynamic global HSEQ team. This team is responsible for driving HSEQ excellence globally across a fleet of projects in development, construction, and operations in onshore and offshore wind.

Your key activities and responsibilities will include:

- Support the development and implementation of the corporate HSEQ strategy and management systems.
- Provide guidance and support to project teams to ensure HSEQ standards are integrated into project planning, execution, and delivery.
- Check and confirm HSEQ implementation and compliance by undertaking periodic audits and ensuring assurance of projects at both corporate and project levels.
- Produce clear, concise, and quality-assured technical documentation.
- Identify, assess, and mitigate HSEQ-related risks across all areas of the organization and in project-specific contexts.
- Review HSEQ datasets to analyse prevailing trends, devise proactive and preventative campaigns, and undertake regular audits and inspections.
- Design and deliver HSEQ training and awareness programs.
- Carry out incident investigations.

Best-in-class profile with a strong operational focus

As our HSEQ Manager, you should ideally possess the following:

- 5+ years' experience in the renewable energy industry or a related industrial setting.
- Knowledge and understanding of onshore and offshore project development, construction, and operations.
- Practical knowledge and experience with implementing the ISO standards (e.g., ISO 9001, 14001, and OHSAS 45001).
- A degree or equivalent in relevant technical, engineering, or operational disciplines with professional qualification, s e.g., NEBOSH, CMIOSH (or working towards it), or equivalent professional membership.
- Excellent verbal and written communication skills, capable of producing documentation, reports, and presentations.
- Strong stakeholder management and relationship skills.
- Understanding of risk management frameworks and incident investigation methodologies.
- Experience within wind operations & maintenance, site, and office-based roles.

Experience the Highest Degree of Involvement

In this position, you will gain knowledge and expertise from the best-in-class asset management for wind power assets, where we focus on cooperation and technical excellence. PEAK Wind is dedicated to fostering a work environment that values diversity, and our values of Expertise, Passion, Unity, and Integrity are materialised through our team members every day.

Interested and want to know more?

If you have any questions or want to know more about the position, please contact People & Development via recruitment@peak-wind.com. We look forward to receiving your application & CV as soon as possible, latest by **July 27th, 2025**. Please apply through 'Apply' at the bottom of the page. Applications will be assessed on an ongoing basis.

PEAK Wind is dedicated to fostering a work environment that values diversity. We encourage all interested candidates to apply, regardless of age, race, gender identity, sexual orientation, disability, religion, or ethnicity.
