

Senior Commercial & Operations Consultant

Are you passionate about renewable energy and eager to work at the forefront of the global energy transition? PEAK Wind is seeking a Senior Commercial & Operations Consultant to work across both areas, supporting our Asset Management portfolio and external clients. In this joint role, you will combine operational delivery leadership with commercial and contractual expertise, helping projects mobilise effectively, optimise asset performance, and secure strong outcomes across key O&M agreements.

Introducing the Operations Delivery and Commercial & Contracts Teams

You will take up a joint Operations Delivery and Commercial & Contracts role within PEAK Wind, working collaboratively with colleagues across both areas and the wider business supporting renewable energy projects around the world. The Operations Delivery team leads operational mobilisation, readiness, and improvement initiatives across PEAK Wind's managed portfolio. The Commercial & Contracts team supports clients in achieving optimum commercial outcomes through the wind asset lifecycle, with particular focus on the negotiation and management of key O&M agreements (WTG and BoP service agreements in particular), O&M contract management, O&M commercial strategy and warranty and claims management.

You will have a shared reporting line to the Head of Operations Delivery and the Director of Commercial & Contracts, while working closely with colleagues across PEAK Wind's practice groups, regions, and client-facing teams.

How You Will Make an Impact

As a Senior Commercial & Operations Consultant, you will provide operational leadership and subject matter expertise across PEAK Wind's global portfolio. Your key responsibilities will include:

- Partner with Asset and Operations Managers across APAC, NEME, or North America to support operational and business objectives.
- Identify, develop, and deliver strategic initiatives that enhance performance and support global implementation.
- Lead or support the mobilisation and operational readiness of new projects entering the PEAK Wind portfolio.
- Manage operational and engineering improvement projects across existing assets.
- Collaborate with regional teams, support functions, and external partners to develop and enhance operational processes, systems, and tools.
- Support business growth through new service offerings and Owner/Operator opportunities.
- Lead warranty and claims activities, including strategy development, contract analysis, claim management, and supplier negotiations.
- Support O&M procurement activities, including ITT preparation, supplier evaluation, commercial negotiations, and contract award.
- Negotiate and manage key O&M agreements, including WTG Service Agreements, OMA, and AMA contracts.
- Travel globally as required to support projects, clients, and business development activities.

What Will Make You Successful in This Role

At PEAK Wind, we know success comes in many forms. What matters most is your mindset, curiosity, and drive to make an impact. The following qualities and experiences will help you succeed in this role:

- Knowledge of Operations and Asset Management, with a well-rounded understanding of the energy industry and the commercial drivers behind long-term operational

performance.

- Demonstrable experience negotiating, managing, or supporting O&M contracts.
- Commercial confidence in working with OEMs, major suppliers, client procurement teams, technical specialists, and legal advisors.
- A degree in a relevant field or equivalent industry knowledge.
- A flexible, dynamic, and agile work style allows fast learning and the ability to synthesize complex problems quickly.
- Strong stakeholder management with experience in building strategic relationships.
- A background from management consulting, large-scale energy infrastructure projects, or roles where you have gained broad experience in the renewable energy sector would also be relevant.
- A structured approach to problem-solving and the ability to take initiative, LEAN/Six Sigma experience desirable.
- A collaborative mindset and the ability to thrive in an international, cross-functional team.

Why Join PEAK Wind

- An international, inclusive, and diverse workplace where differences are valued.
- The opportunity to work on leading renewable energy projects alongside experienced industry professionals.
- Flexible working arrangements that support both your career and personal life.
- A flat organisational structure where your ideas are welcomed and your contributions matter.
- A strong focus on your learning, development, and professional growth.
- A culture that values commitment, meaningful contributions, and having fun.

Our Commitment to Inclusion and Fair Hiring

We believe that a diverse and inclusive workplace drives innovation, creativity, and stronger results. At PEAK Wind, we are committed to fair and transparent hiring processes, welcoming candidates from all backgrounds, identities, and experiences. Our hiring decisions focus on what each person brings to the role and our team.

How to Apply

We look forward to receiving your application. Applications will be reviewed on an ongoing basis, and we reserve the right to close the recruitment process once the right candidate has been found. Please apply directly through our website. If you have any questions or would like to know more about the position, please contact People & Development at recruitment@peak-wind.com.

About PEAK Wind

PEAK Wind is an independent renewable energy specialist in commercial, financial, and technical operations, delivering advisory, intelligence, and asset management services to investors and developers around the world. From onshore and offshore wind generation to Power-to-X, we work across the entire energy lifecycle to optimise operations and maintenance, enhance asset performance, and provide a holistic view of renewable infrastructure portfolios.

Our values - Expertise, Passion, Unity, and Integrity - are reflected in everything we do, from how we support our clients to how we collaborate as a team. At PEAK Wind, you will be able to apply your professional skills in a dynamic environment and experience a meaningful responsibility and involvement.
