

Commercial & Operations Consultant

Deadline:

14-09-2026

Are you passionate about renewable energy and eager to build your expertise across both commercial and operational aspects of wind energy projects? PEAK Wind is looking for a Commercial & Operations Consultant to join a unique cross-functional role supporting asset management projects and clients worldwide.

Employment type:

Full time

Introducing the Operations Delivery and Commercial & Contracts Teams

Practice group:

Commercial & Contracts

You will take up a joint Operations Delivery and Commercial & Contracts role within PEAK Wind, working collaboratively with colleagues across both areas and the wider business supporting renewable energy projects around the world. The Operations Delivery team leads operational mobilisation, readiness, and improvement initiatives across PEAK Wind's managed portfolio. The Commercial & Contracts team supports clients in achieving optimum commercial outcomes through the wind asset lifecycle, with particular focus on the negotiation and management of key O&M agreements (WTG and BoP service agreements in particular), O&M contract management, O&M commercial strategy and warranty and claims management.

Location:

Aarhus, Denmark, Copenhagen, Denmark, Hamburg, Germany, London, England, UK, Glasgow, Scotland, UK

You will have a shared reporting line to the Head of Operations Delivery and the Director of Commercial & Contracts, while working closely with colleagues across PEAK Wind's practice groups, regions, and client-facing teams.

How You Will Make an Impact

As a Commercial & Operations Consultant, you will support both operational and commercial initiatives across PEAK Wind's portfolio and client projects. Your responsibilities will include:

- Support Asset and Operations Managers in achieving operational and business objectives across global projects.
- Contribute to operational readiness and mobilisation activities for new renewable energy assets entering operation.
- Assist in the delivery of operational improvement initiatives and performance optimisation projects.
- Help develop and improve operational processes, systems, tools, and ways of working.
- Support commercial and contractual activities related to O&M agreements and supplier relationships.
- Assist with O&M procurement processes, including ITT preparation, supplier evaluation, commercial assessments, and contract reviews.
- Contribute to warranty and claims management activities, including analysis, documentation, and stakeholder coordination.
- Work closely with clients, OEMs, suppliers, and internal specialists to support project delivery.
- Support business development initiatives and the development of new service offerings.
- Travel as required to support projects, workshops, and client engagements.

What Will Make You Successful in This Role

At PEAK Wind, we know success comes in many forms. What matters most is your mindset, curiosity, and drive to make an impact. The following qualities and experiences will help you succeed in this role:

- An educational background in Engineering, Business, Economics, Energy Management, or a related discipline.
- Experience from renewable energy, infrastructure projects, consulting, operations, commercial management, procurement, or asset management.
- An interest in both operational performance and commercial decision-making.
- Strong analytical and problem-solving capabilities with a structured approach to work.

- The ability to manage multiple stakeholders and collaborate across functions, cultures, and geographies.
- Excellent communication skills and confidence working in an international environment.
- A proactive attitude with a willingness to take ownership and continuously develop new skills.
- Experience with O&M contracts, procurement activities, contract management, or operational improvement initiatives is considered an advantage.

Why Join PEAK Wind

- An international, inclusive, and diverse workplace where differences are valued.
- The opportunity to work on leading renewable energy projects alongside experienced industry professionals.
- Flexible working arrangements that support both your career and personal life.
- A flat organisational structure where your ideas are welcomed and your contributions matter.
- A strong focus on your learning, development, and professional growth.
- A culture that values commitment, meaningful contributions, and having fun.

Our Commitment to Inclusion and Fair Hiring

We believe that a diverse and inclusive workplace drives innovation, creativity, and stronger results. At PEAK Wind, we are committed to fair and transparent hiring processes, welcoming candidates from all backgrounds, identities, and experiences. Our hiring decisions focus on what each person brings to the role and our team.

How to Apply

We look forward to receiving your application. Applications will be reviewed on an ongoing basis, and we reserve the right to close the recruitment process once the right candidate has been found. Please apply directly through our website. If you have any questions or would like to know more about the position, please contact People & Development at recruitment@peak-wind.com.

About PEAK Wind

PEAK Wind is an independent renewable energy specialist in commercial, financial, and technical operations, delivering advisory, intelligence, and asset management services to investors and developers around the world. From onshore and offshore wind generation to Power-to-X, we work across the entire energy lifecycle to optimise operations and maintenance, enhance asset performance, and provide a holistic view of renewable infrastructure portfolios.

Our values - Expertise, Passion, Unity, and Integrity - are reflected in everything we do, from how we support our clients to how we collaborate as a team. At PEAK Wind, you will be able to apply your professional skills in a dynamic environment and experience a meaningful responsibility and involvement.
